BALAKLALA IS SURE TO BE SOLD

Coram Withdraws Suit and Joins

watter would be entirely closed up and the sale made a thing of the past with in five weeks from now, or by the end of October.

When the Balaklala property, was recommended to the Kimberly-Buhl syndicate, better known as the Western Exploration company, by Mr. Snyder some three years ago, it was with a declaration on his part that if money was spen in its development the property could be converted into one of the bigges copper propositions in the west. At the time of Mr. Kimberley's death, arrangements were being perfected for the equipment of the mines with large smeltin works and, while the deal just close may be considered as a good busines transaction from a profit-making standpoint, there is little or no doubt tha had Mr. Kimberley lived, the White Kno company would never have been able to get the mines for the price they at company would never have been able got the mines for the price they a paying.

OPTION ON DEWEY INTEREST

Pittsburg Talent Is Buying Into De Creek Mine.

At the Dewey company's property in the Deep creek section, a close-down of short duration was ordered a few days ago. There is no trouble at all at the property, but the order was given as a result of the pendency of an op-on for one of the largest interests in the company, that is running in favor of Pittsburg capitalists.

"The fate of the deal will be known during the next few days," said Secretary J. M. Hamilton yesterday, "and then work will be ersumed again and with increased vigor, as we now feel certain that the district is going to enjoy the benefits of railroad communication during the next twelve months. That is all

ing the next twelve months. That is althat we need. Altogether we have made N2 ounces of silver, 10 to 12 per cent copper, \$ to 12 per cent lead and a little gold. Being four miles from Ibapah in easterly direction, our property is too distant from the smelters to permit of our hauling anything but the best selected rock. However, we have any amount of ore that will bring from \$60 to more than \$100 per ton and when the desert is spanned by the Western Pacific, a few months hence, we shall be able to market lots of ore that it is useless to mine under present conditions, notwithstanding its excellent value, when compared with ores of nearby camps.

"A new tunnel has been started which is designed to open the mine at an additional depth of 200 feet or more. This tunnel will be pushed into the ledge and ore bodies during the winter and then we shall be in shape to make the property more than pay its way and, with reasonable rallroad rates across the desert and a comparatively short wagon haul to a loading station, we can build up a surplus at the same time."

Few people, Mr. Hamilton said, could appreciate what the railroad was going to do for the Deep Creek region and fewer still could understand what the relion would do for the railroad when the opportunity came. He declares the richest mineral zone in Utah is being reached and that a tremendous mining boom will follow the completion of the road.

and that a tremendous mining boom follow the completion of the road.

JACOBSON STILL MANAGER.

Knows Nothing of Having Been Deposed at Columbus Con.

happen, of course, but in this instance I have to plead ignorance of having been advised that the move was on foot.

When asked what there was to the story Clarence K. McCornick. vice president of the company, said he had no knowledge that such a change had been made or was in contemplation. He thought the story originated in the recent withdrawal of Mr. Jacobson from the South Columbus directorate.

For all that there appears to be something or another brewing in the Columbus Consolidated family. For one thing, the mine is now paying handsomely and the ore bodies are opened up in a most prodigal fashion. Such a condition of things in almost any kind of a corporation is enough for an envious eye to be cast in the direction of the management and, while the credit of making a bonanza of the Columbus Consolidated can never be taken from Mr. Jacobson, who has been constantly in harness from the moment the first shot was fired in the campaign of development, it may be that his scalp is being sought.

HARD TO KEEP MINERS.

Work So Plentiful in Bingham Tha They Shift Often.

Largely because of the difficulty experienced in keeping good miners at work. Manager A. L. Jacobs of the Butler-Liberal has just awarded a contract for 100 feet of work in that property.

"While we have been employing only about twenty men at the mine," said Mr. Jacobs during the afternoon, "the last month showed eighty names on the payroll. There is so much work going on in Bingham at the present time that men are prone to give up their positions anywhere for most trivial cause and go somewhere else. Men are making from \$2.75 to \$3.25, but an extra drop of water, a streak of hard ground or most any little thing, will cause them to take their time and go at some thing else. As a result companies operating with a few men, as we are, have a time to keep running steadily and make headway in the work. The task ahead of us for the present can just as well be occomplished by contract and under the circumstances, I am sure it can be done cheaper." can be done cheaper.

Champion Company Files. Articles of incorporation of the Cham-pion Mining Co., were filed yesterday in

STOCK MARKET UNDER PRESSURE

	100	and the same of
Admonition	Against	Speculat
	Excess.	

CAUTION THE WAN

Came Near to Being

Yesterday's trading on the mitochange a total of 12,899 shares of stock the selling value of which was shown to the total of 12,809 shares of the total of 12,800 shares of the total of 12,809 shares of the total of 12,800 shares of the tot and the market was under pressure at times. Ceil loan rates advanced to the highest level of the year, under the defined and for accommodation to carry over until Monday, which is required under the stock exchange rules. On the other hand, the promise was for a good bank statement, and operators in stocks went in the force of the advantage which might come from the sentimental effect of this ditto forces the advantage which might come from the sentimental effect of this ditto who out the small gain on the week's to while to who out the small gain on the week's to while the week had hardly been sufficient to who out the small gain on the week's serves of the banks should seem therefore to be little changed from last wek's. The principal interest attaches to the loan item. There has been some with drawals of credits during the week, but it is not clear whether this has been on the part of the banks or has been on the part of the banks or has been on the part of the banks or has been on the part of the banks or has been on the part of the trust companies on loans previously taken over from the banks. A decrease in the loan item of the surplus reserve item. Such an improvement undoubtedly would be welcome as a margin against future needs. It is not clear whether this secriptions to the \$100,000,000 Pennsylvania convertible bond issues. On Sept. 30 is payable a 3th per cent installment of subscriptions to the \$100,000,000 Pennsylvania convertible bond issues. On Sept. 30 is payable a 3th per cent installment of subscriptions to the historic payable as a partial payment has already been made in anticipation of the maturity of the obligation by a large number of subscribers in order to say a period of the pression, and where the subscriptions are the pression, and where the the pression, and where the pres value, \$4,280,000. United States 2s, coupon, advanced ½

Metal Markets.

Money, Silver, Etc.

New York, Sept. 22.—Close: Money on call, firm and higher, 3\(\frac{34}{40}\) 4\(\frac{4}{2}\) per cent; closing bid, 3\(\frac{3}{2}\) per cent; time loans, steady; sixty days, 3\(\frac{34}{2}\) per cent; time loans, steady; sixty days, 3\(\frac{3}{2}\) 4\(\frac{4}{2}\) per cent; six months, 4\(\frac{4}{40}\) per cent.

Prime mercantile paper, 4\(\frac{4}{20}\) per cent. Sterling exchange firm, with actual business in bankers' bills at 4.8520\(\frac{4}{2}\). S25 for demand and at 4.823\(\frac{5}{2}\) 4.82\(\frac{4}{2}\). S25 solutions at 1 silver, 61\(\frac{4}{2}\). Mexican dollars, 47. Government bolds, firm; railroad bonds, irregular.

Treasury Statement.

Washington, Sept. 22.—Today's statement of the treasury balances in the general fund shows: Available cash balance, \$134,831,937; gold coin and builton, \$59,678,-672; gold certificates, \$49,37,250.

GRAIN AND PROVISIONS.

The Taylor & Brunton sampler was yesterday in receipt of five cars of ore from Tintic, five from Bingham and one from Nevada.

Another big consignment of zinc ore from the Potosi at Good Springs, is being sampled previous to forwarding to the eastern zinc smelling works.

Manager Lafayette Hanchett was at the Boston Consolidated yesterday noting the advancement that is being made in the development of that big copper bonanza. Their business here completed the party of Western Exploration company officials, including Frank H. Buhl, G. H. Baird and others, pulled out for the east again yesterday morning.

David Kennedy, general manager of the Lincoln company's mines and milis at Pearl, Ida, is down from the north. He states that the new cyanide plant is probably in operation by this time, as everything was ready for the start before heleft.

Reports from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the material coming from the Lower Mammoth yesterday were to the effect that a substantial improvement in the character of the day closing quotations being at almost the highest point of the session. Final quotations on De

the market exhibited no unusual strength owing to liberal offerings from commis-sion houses. The market closed firm and unchanged for December at 45½,045%. Oats were firm. December closed 3,0% higher at 294 Kansas City, Sept. 22—Cattle—Receipts 700; steady to weak native steers 4.00@ 6.00; native cows and heifers, 1.75@5.35; stockers and feeders, 2.50@4.25; bulls, 2.00@3.00; calves 2.50@6.00; western steers 3.00@4.75; western cows. 1.75@3.40.

Hogs—Receipts 6.000; market 5c higher; bulk. 5.40@5.50, heavy. 5.40@5.55; packers 5.40@5.50; pigs and light, 5.00@5.45.
Sheep—Receipts 8.000; market 5@10 cents lower; mutton 4.00@5.32; lambs, 5.50@6.30; range wethers, 4.25@5.25; fed ewes 3.50@4.50. higher at 29%.

Provisions were firm as a result of active demand by a local packer for October lard. At the close January pork was up 2½, lard was unchanged and ribs were up 2½.

The leading futures ranged as follows:

Coffee and Sugar.

Coffee and Sugar.

New York, Sept. 22.—Coffee—Spot, Rio, steady; No. 7 invoice, 8¾; mild, firm; Cordova, 10@13. The market for coffee futures opened steady at unchanged prices to a decline of 5 points, and later sold about 5 points lower all around under moderate hedge operations and disappointing European cables. Interior receipts for the day were light, however, and the market rallied in the afternoon on Wall street buying, which was also said to be promoted by agitation with regard to the duty. The close was steady, net unchanged to 10 points higher. Sales were reported of 29,500 bags, including October, 7.05; November, 7.20 December, 7.20@7.30; January, 7.30@7.35; March, 7.40@7.45; May, 7.55@7.60.

Sugar—Raw, steady; fair refining, 3:

Sugar—Raw, steady; fair refining. 3; centrifugal, 96-test, 3%; molasses sugar, 2%; refined, unsettled.
